Golang Quick Reference _{version α}

Intro

```go
package main
import (
  "fmt"
)
func main() {
}
```

More

```go
func foo(bar int, baz int) int {
    return bar + baz
}
```

More2

```go
func foo(bar int, baz int) int {
    return bar + baz
}
```

```go
package anothermain
import (
  "fmt"
)
func main() {
  fmt.Println("Gopher, save me")
}
```

```go
package anothermain
import (
  "fmt"
)
func main() {
  fmt.Println("Gopher, save me")
}
```

```go
package anothermain
import (
  "fmt"
)
func main() {
  fmt.Println("Gopher, save me")
}
```
